WPRO Dengue Situation Update, 25 October 2011

Data up to week ending 15 October 2011 (latest data variable by country)

Cambodia and Singapore have experienced a higher cumulative number of reported cases in 2011 relative to the same time period in 2010. However, dengue activity in both countries has been overall declining.

	Trend	No. reported cases		2011/2010 ratio
		2011	2010	
Australia	-	584	741	0.8
Cambodia	↓	14 032	12 500	1.1
Lao PDR	-	3 020	21 164	0.1
Malaysia	-	15 524	39 264	0.4
Philippines	↓	76 463	101 899	0.8
Singapore	-	4 560	4 211	1.1
Viet Nam		38 684		

The table is based on the number of reported cases. Dengue reporting systems vary by country and any change in the surveillance system over time is not reflected in the above figures. Number of reported cases listed for 2010 and 2011 are for the same time period for each respective year.

Australia: 584 cases (0 deaths) 1 Jan-30 Sep 2011; 741 cases (0 deaths) reported for the same period in 2010. Number of reported cases has remained low, with less than 50 cases per month since Apr 2011.

Cambodia: 14 032 cases (64 deaths; CFR 0.46%) up to 4 Oct 2011, with continuing decline in activity; 12 500 cases in 2010 for the same period.

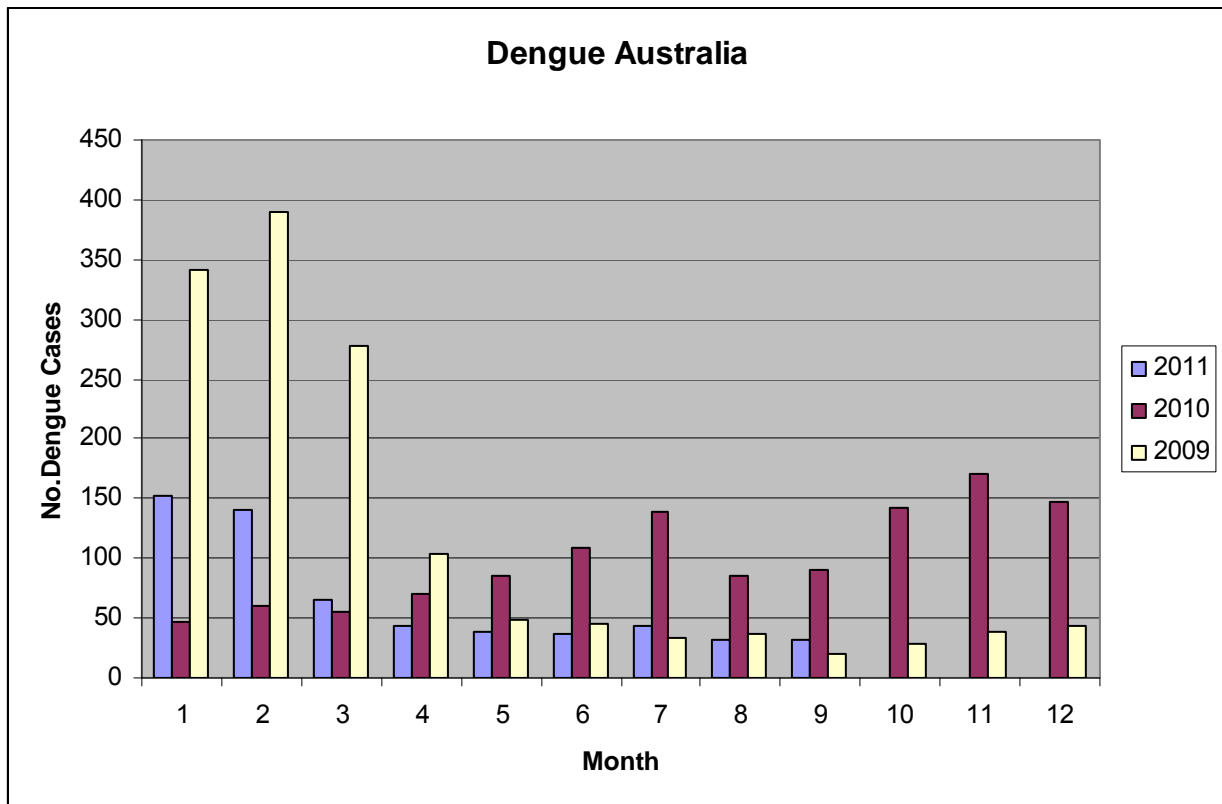

Lao PDR: 3 020 cases (5 deaths; CFR 0.17%) up to 19 Oct 2011; still low activity when compared with the same period in previous years: 21 164 cases in 2010, 6 218 cases in 2009 and 3 488 cases in 2008.

Malaysia: 15 524 cases (26 deaths; CFR 0.17%) up to 15 Oct 2011, with continuing low activity so far in 2011; 39 264 cases (117 deaths) in 2010 for the same period.

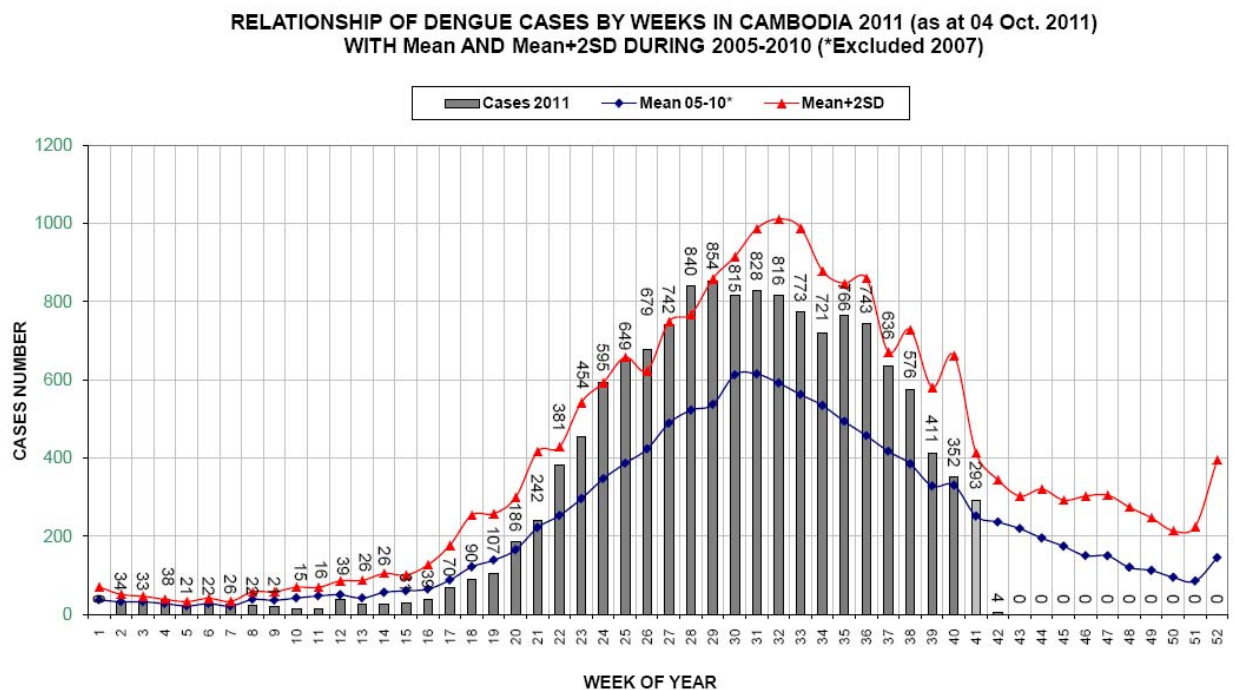

Philippines: 76 463 cases (412 deaths, CFR 0.54%) up to 17 Sep in 2011, with increase in activity from June to Aug 2011. 101 899 cases in 2010 for the same period. Regions NCR, III and IV-A have reported the greatest number of cases.

Singapore: 4 560 cases up to 15 Oct 2011, with activity declining since Aug 2011; since the week ending 13 Aug, the weekly number of cases has been below the epidemic threshold. 4 211 cases reported in 2010 for the same period.

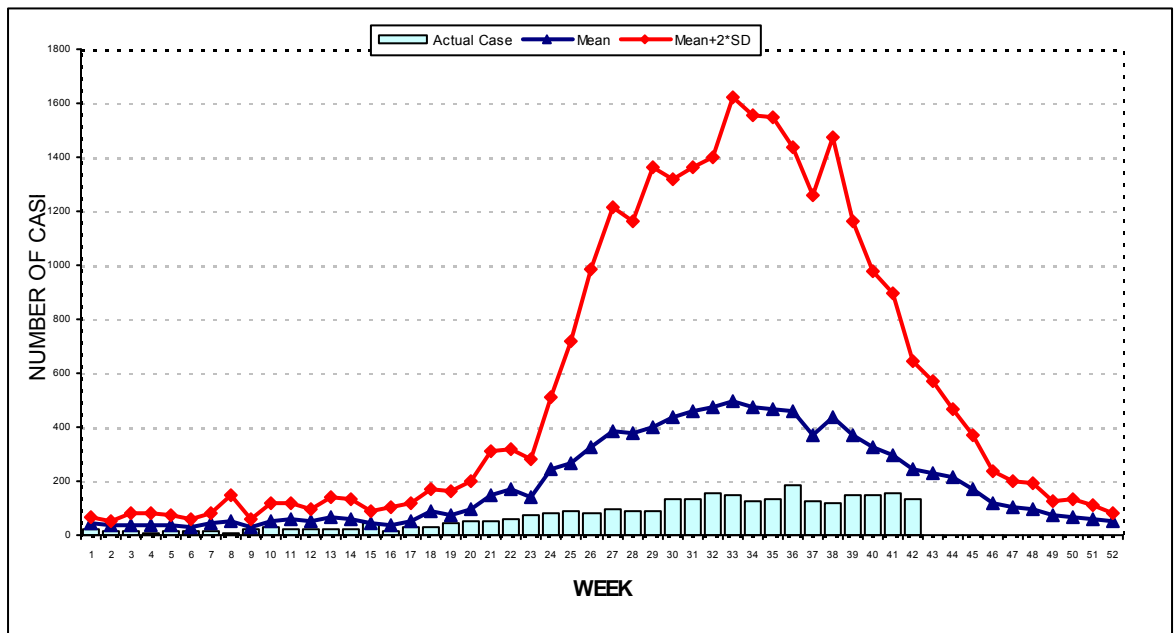

Viet Nam: From 1 Jan to 31 August 2011: 38 684 cases and 32 deaths (CFR 0.08%). Majority cases (35 308) and deaths (31) from southern Viet Nam.
