

Through 27 Nov 2010, dengue activity has been overall declining among WPR countries with local dengue transmission.

	Current Trend	No. reported cases to date		2010/2009 ratio
		2010	2009	
Philippines	↓	123 939	51 546	2.4
Lao PDR	↓	22 554	7 317	3.1
Cambodia	↓	12 078	11 378	1.1
Singapore	↓	4 918	4 163	1.2
Malaysia	↓	43 543	37 278	1.2
Australia	stable	943	1 355	0.7

Philippines: 123 939 cases (737 deaths, case fatality rate (CFR) 0.59%) from 1 Jan to 13 Nov 2010, with number of reported cases declining after peaking in Aug; 51 546 cases reported for the same period in 2009. The high number of cases may be partly due to improved reporting and heightened awareness.

Lao PDR: 22 554 cases (45 deaths, CFR 0.20%) from 1 Jan to 20 Nov 2010, with weekly number of reported cases declining after peaking in 8-14 Aug; 7 317 cases reported for the same period in 2009. The high number of cases may be partly due to improved reporting and heightened awareness.

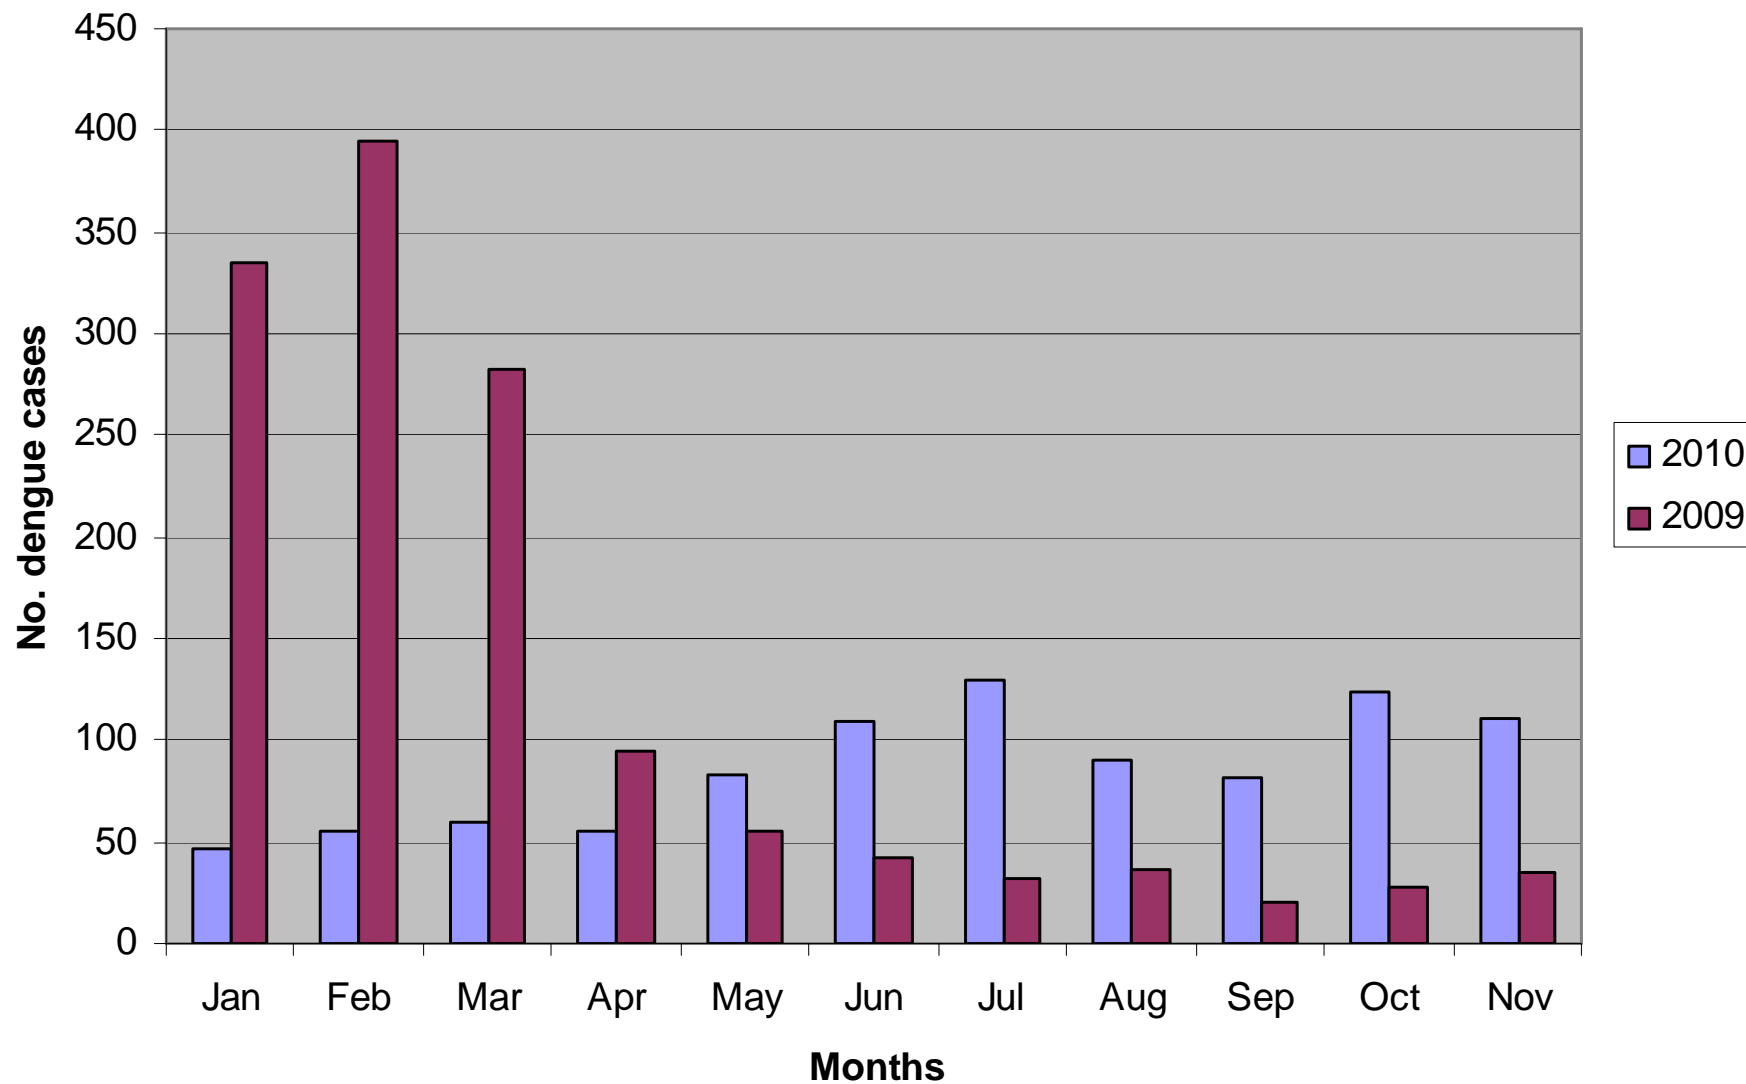

Cambodia: 12 078 cases (35 deaths, CFR 0.29%) from 1 Jan to 26 Nov 2010, with number of reported cases declining after peaking in 1-7 Aug; 11 378 cases reported for the same period in 2009.

Singapore: 4 918 cases (0 deaths) from 1 Jan to 27 Nov 2010, with number of reported cases declining after peaking in 19-25 Sep; 4163 cases reported for the same period in 2009.

Malaysia: 43 543 cases (129 deaths, CFR 0.30%) from 1 Jan to 27 Nov 2010, with number of reported cases gradually declining after peaking in 22-28 Aug; 37 278 cases reported for the same period in 2009.

Viet Nam: 88 620 cases (55 deaths, CFR 0.06%) from 1 Jan to 31 Oct 2010; 74 242 cases reported for the same period in 2009.

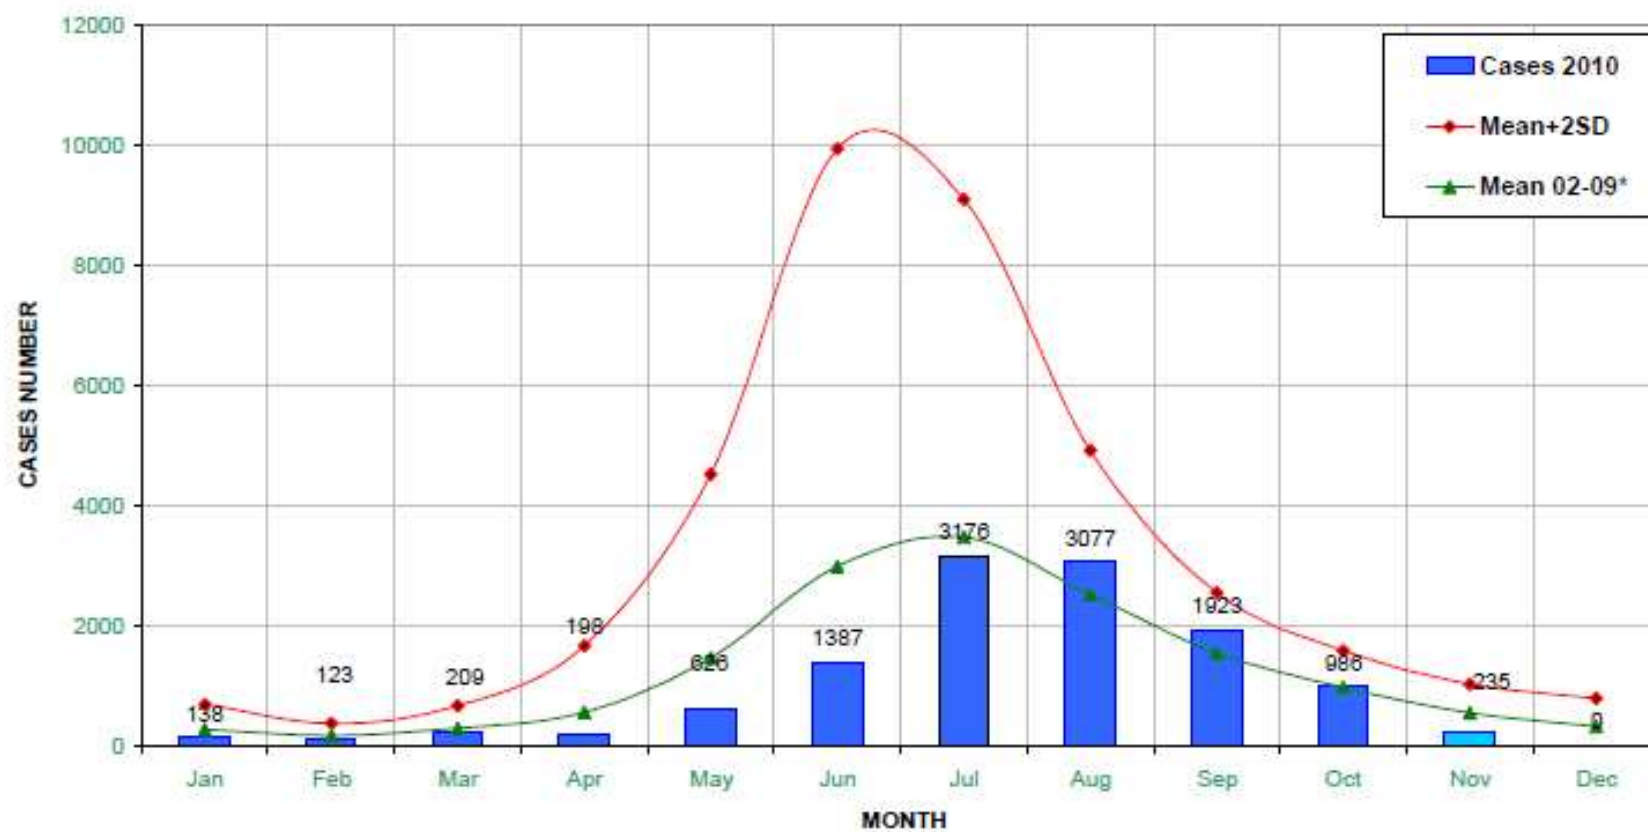

Australia: 943 cases (0 deaths) from 1 Jan to 30 Nov 2010, with monthly number of reported cases plateauing since Jul; 1 355 cases reported for the same period in 2009.
