

Through 18 Dec 2010, dengue activity has been overall declining among WPR countries with local dengue transmission.

	Current Trend	No. reported cases to date		2010/2009 ratio
		2010	2009	
Philippines	↓	125 719	52 611	2.4
Lao PDR	↓	22 772	7 706	3.0
Cambodia	↓	12 347	11 652	1.1
Singapore	↓	5 185	4 358	1.2
Malaysia	↓	45 165	39 794	1.1
Australia	↑	1 027	1 363	0.8

Philippines: 125 719 cases (737 deaths, case fatality rate (CFR) 0.59%) from 1 Jan to 20 Nov 2010, with number of reported cases declining after peaking in Aug; 52 611 cases reported for the same period in 2009. The high number of cases may be partly due to improved reporting and heightened awareness.

Lao PDR: 22 772 cases (45 deaths, CFR 0.20%) from 1 Jan to 11 Dec 2010, with weekly number of reported cases declining after peaking in 8-14 Aug; 7 706 cases reported for the same period in 2009. The high number of cases may be partly due to improved reporting and heightened awareness.

Cambodia: 12 347 cases (37 deaths, CFR 0.30%) from 1 Jan to 18 Dec 2010, with number of reported cases declining after peaking in 1-7 Aug; 11 652 cases reported for the same period in 2009.

Singapore: 5 185 cases (0 deaths) from 1 Jan to 18 Dec 2010, with number of reported cases declining after peaking in 19-25 Sep; 4 358 cases reported for the same period in 2009.

Malaysia: 45 165 cases (134 deaths, CFR 0.30%) from 1 Jan to 18 Dec 2010, with number of reported cases gradually declining after peaking in 22-28 Aug; 39 794 cases reported for the same period in 2009.

Viet Nam: 88 620 cases (55 deaths, CFR 0.06%) from 1 Jan to 31 Oct 2010; 74 242 cases reported for the same period in 2009.

Australia: 1 027 cases (0 deaths) from 1 Jan to 30 Nov 2010, with monthly number of reported cases increasing since Aug; 1 363 cases reported for the same period in 2009.
