WPRO Dengue Situation Update, 8 Jun 2011

Data up to end of week 22 (week ending 5 Jun 2011; latest data variable by country)

Dengue activity among WPR countries with local dengue transmission has been overall low. Cambodia, however, has been seeing a rise in dengue incidence.

	Trend	No. reported cases		2011/2010 ratio
		2011	2010	
Australia*	↓	427	318	1.3
Cambodia	↑	1 482	1 111	1.3
Lao PDR	-	448	1 795	0.2
Malaysia	-	8 108	18 815	0.4
Philippines	↓	24 570	24 850	1.0
Singapore	-	1 739	1 676	1.0
Viet Nam		13 681		

The table is based on the number of reported cases. Dengue reporting systems vary by country and any change in the surveillance system over time is not reflected in the above figures. Number of reported cases listed for 2010 and 2011 are for the same time period for each respective year.

**Aedes aegypti* is present only in Northern Queensland

Australia: 427 cases (0 deaths) Jan-May 2011; 318 cases reported for the same period in 2010. Number of reported cases, however, has continued to decline.

Cambodia: 1 482 cases (11 deaths; CFR 0.7%) up to end of week 22 in 2011, with increasing activity; 1 111 cases (6 deaths) in 2010 for the same period.

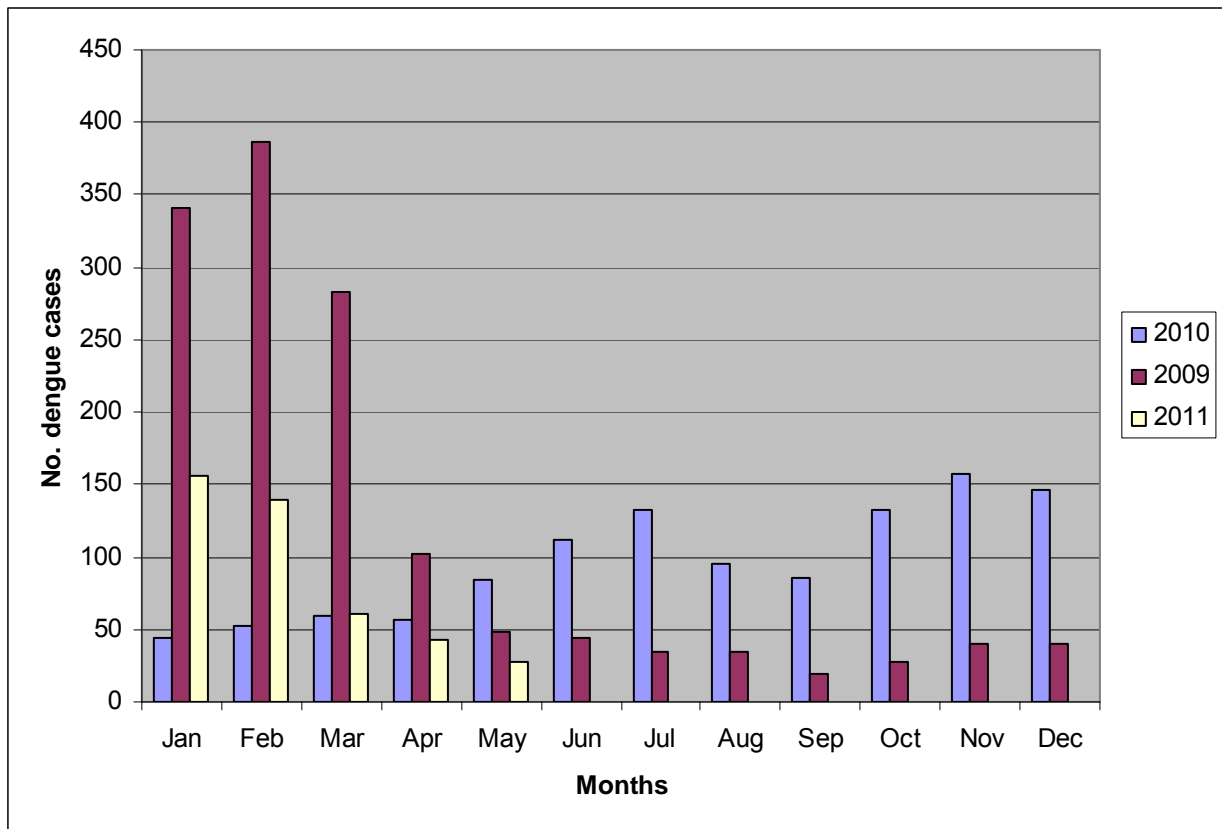

Lao PDR: 448 cases (0 deaths) up to end of week 19 in 2011, with overall low activity in 2011 so far; 1 795 cases in 2010 for the same period.

Malaysia: 8 108 cases (12 deaths; CFR 0.14%) up to end of week 20 in 2011, with continuing low activity so far in 2011; 18,815 cases (60 deaths) in 2010 for the same period.

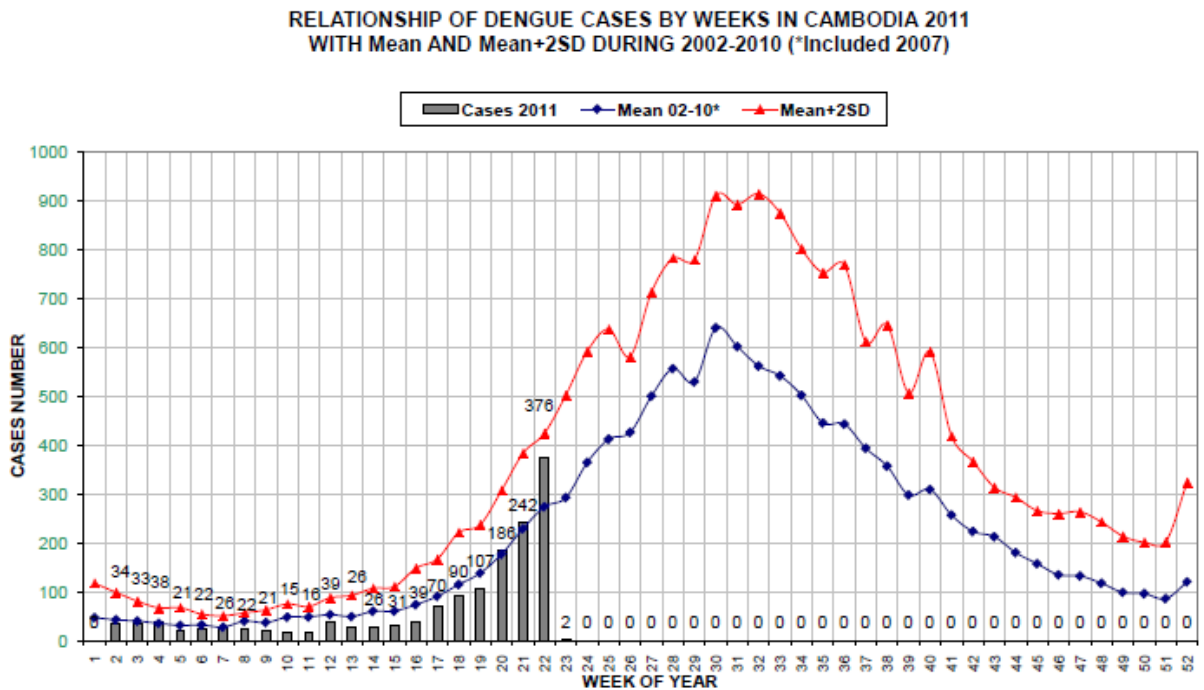

Philippines: 24 570 cases (150 deaths, CFR 0.61%) up to end of week 21, with overall declining activity in 2011; however, numbers are expected to increase soon as the country enters the rainy season. 24 850 cases in 2010 for the same period; however, the reported numbers are considerably higher in 2011 so far for Regions III, IV-A and NCR.

Singapore: 1 739 cases up to end of week 22, with number of reported cases overall increasing but remaining below warning level; 1 676 cases in 2010 for the same period.

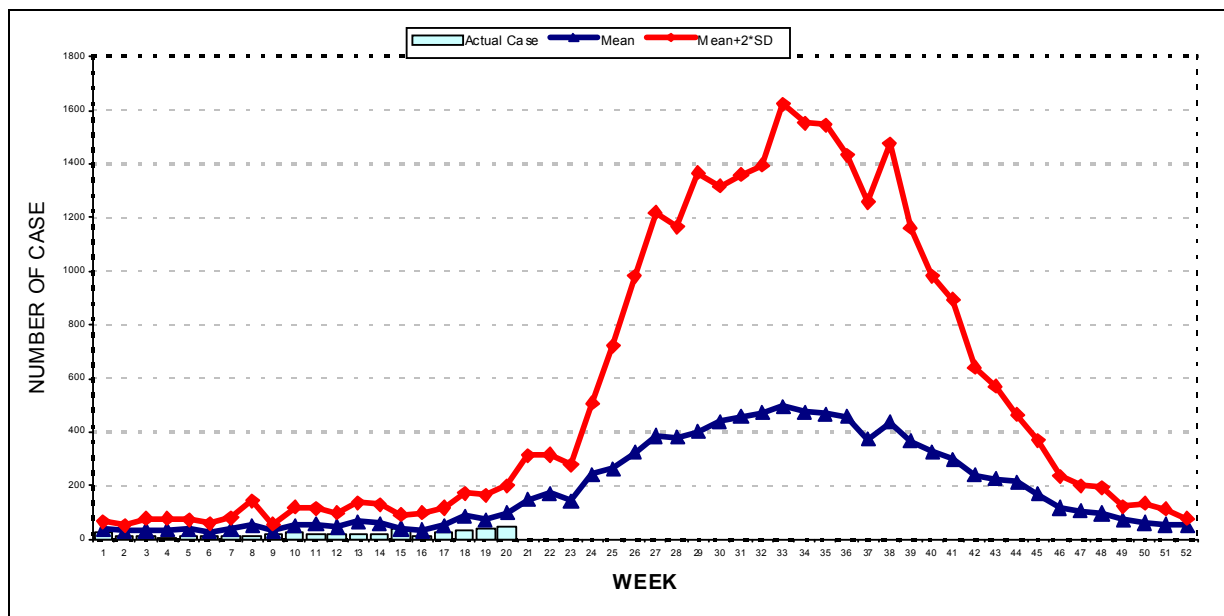

Viet Nam: 13 681 cases (8 deaths, CFR 0.06%) 1 Jan - 15 May 2011 which is 3.3% lower than the number of cases for the same period in 2010. There were 13 dengue deaths for the same period in 2010.
