WPRO Dengue Situation Update, 9 November 2011

Data up to week ending 29 October 2011 (latest data variable by country)

Cambodia has experienced a higher cumulative number of reported cases in 2011 relative to the same time period in 2010. However, dengue activity in a country has been overall declining.

| | Trend | No. reported cases | | 2011/2010 ratio |
|--------------------|-------|--------------------|---------|-----------------|
| | | 2011 | 2010 | |
| Australia | - | 611 | 883 | 0.7 |
| Cambodia | ↓ | 14 652 | 11 656 | 1.3 |
| Lao PDR | - | 3 317 | 22 016 | 0.2 |
| Malaysia | - | 16 300 | 40 959 | 0.4 |
| Philippines | ↓ | 97 158 | 153 906 | 0.6 |
| Singapore | - | 4 697 | 4 495 | 1.0 |
| Viet Nam | | 38 684 | | |

The table is based on the number of reported cases. Dengue reporting systems vary by country and any change in the surveillance system over time is not reflected in the above figures. Number of reported cases listed for 2010 and 2011 are for the same time period for each respective year.

Australia: 611 cases (0 deaths) 1 Jan-31 Oct 2011; 883 cases (0 deaths) reported for the same period in 2010. Number of reported cases has remained low, with less than 50 cases per month since Apr 2011.

Cambodia: 14 652 cases (66 deaths; CFR 0.45%) up to 25 Oct 2011, with continuing decline in activity; 11 656 cases in 2010 for the same period.

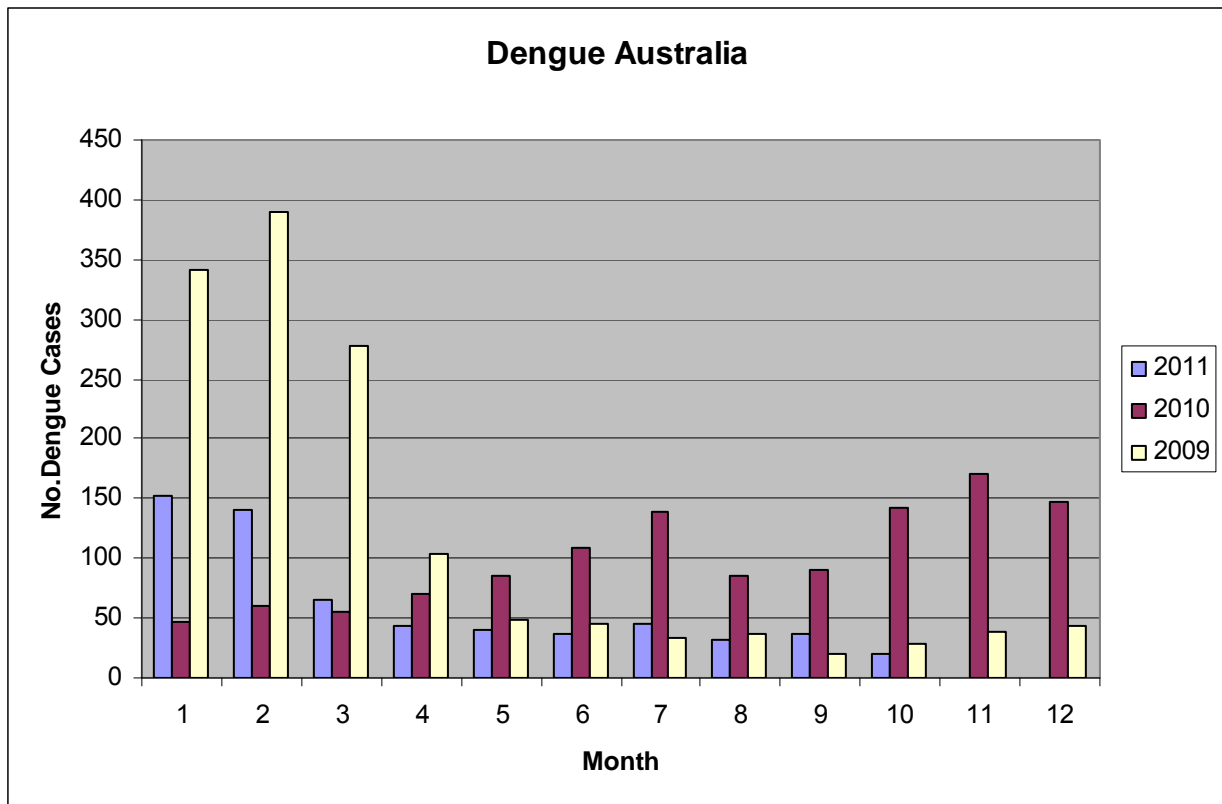

Lao PDR: 3 317 cases (6 deaths; CFR 0.18%) up to 2 Nov 2011; still low activity when compared with the same period in previous years: 22 016 cases in 2010, 6 749 cases in 2009 and 3 719 cases in 2008.

Malaysia: 16 300 cases (27 deaths; CFR 0.17%) up to 29 Oct 2011, with continuing low activity so far in 2011; 40 959 cases (119 deaths) in 2010 for the same period.

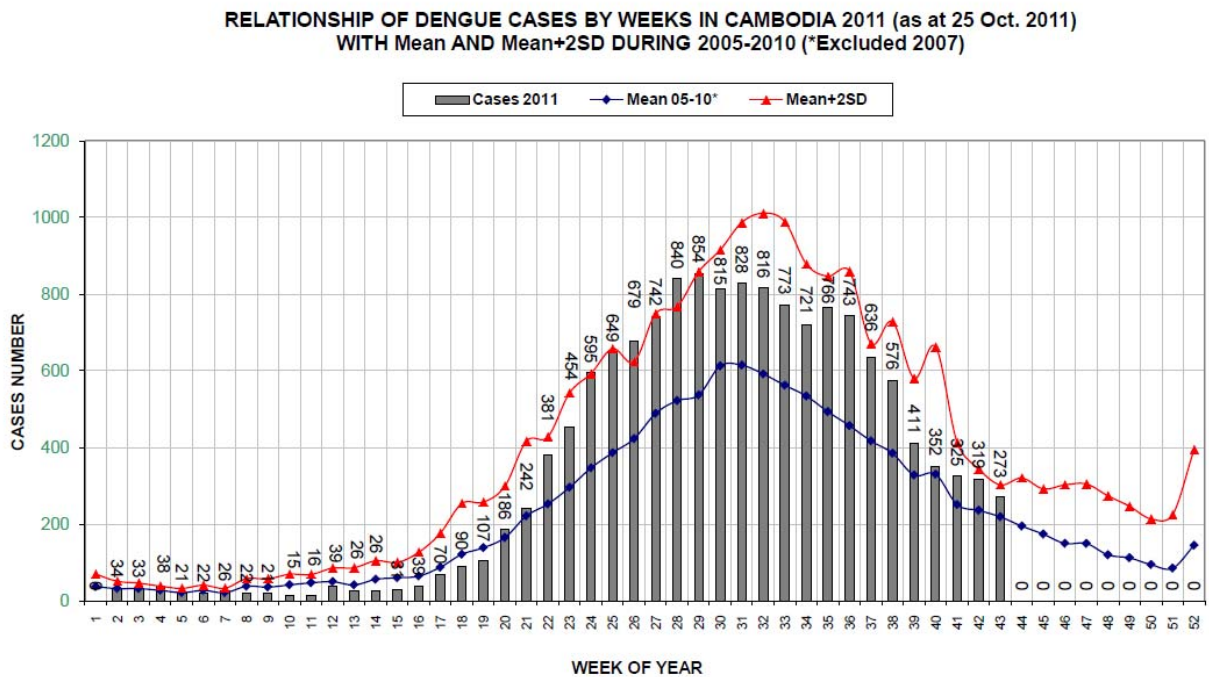

Philippines: 95 178 cases (527 deaths, CFR 0.54%) up to 22 Oct in 2011, with increase in activity from June to Aug 2011. 153 906 cases in 2010 for the same period. Regions NCR, III and IV-A have reported the greatest number of cases.

Singapore: 4 697 cases up to 29 Oct 2011, with activity declining since Aug 2011; since the week ending 13 Aug, the weekly number of cases has been below the epidemic threshold. 4 495 cases reported in 2010 for the same period.

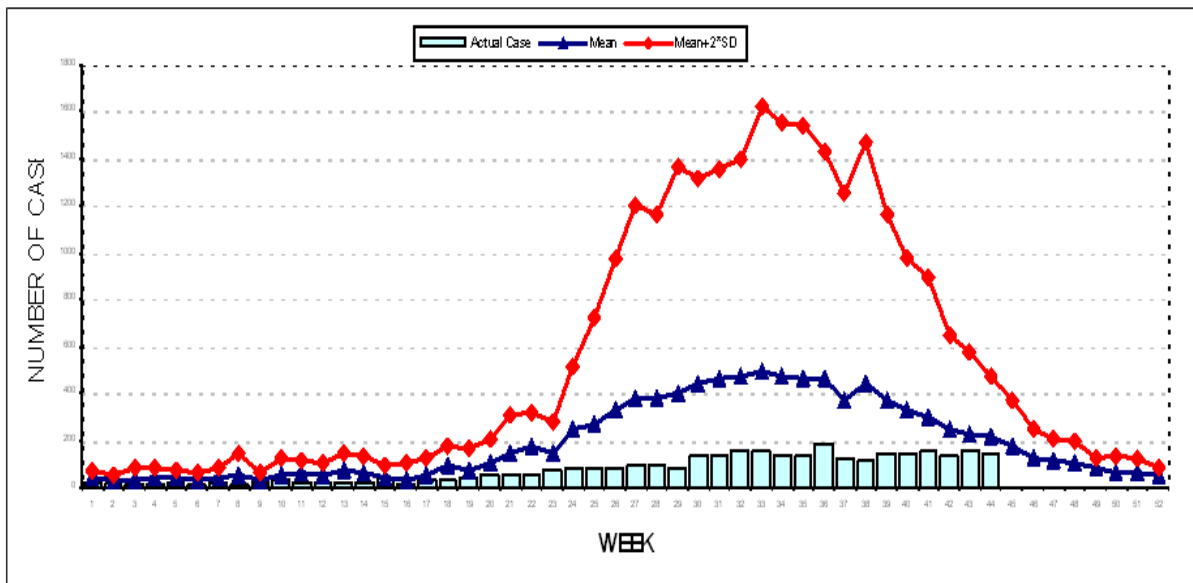

Viet Nam: From 1 Jan to 31 August 2011: 38 684 cases and 32 deaths (CFR 0.08%). Majority cases (35 308) and deaths (31) from southern Viet Nam.
